Situation

Mt. Carroll is situated on the Chicago, Milwaukee & St. Paul Railway, 128 miles (three trains each way daily, to and from Chicago) immediately west of Chicago on the Omaha division of this line. It is 150 miles south-west of Milwaukee on the Racine & Rock Island division. Two trans-continental trains, including the famous "San Francisco Overland Limited," to and from Chicago and San Francisco and Los Angeles, pass through Mt. Carroll daily, stopping to let off sleeping-car passengers from distant points. Express trains, likewise, between Chicago and Denver, Omaha, Sioux City, Chamberlain, Sioux Falls and Rapid City (South Dakota), St. Paul, Minneapolis, Kansas City, Ottumwa, Des Moines, Cedar Rapids, Marion, and intervening points, pass through Mt. Carroll daily, furnishing fine facilities for transportation. Particular attention is invited to the fact that passengers from the numerous places on the lines of the St. Paul and Union Pacific roads can reach Mt. Carroll *without any change of cars whatever*, there being, in the case of many of these points, three trains a day. Connection is made in Minneapolis with the Olympian and Columbian transcontinental trains to Tacoma, Seattle, and Portland.

The railway company, on request, adds a special car for the exclusive use of our pupils and teachers to the train leaving Chicago at 1:30 P.M. on the afternoon before the opening of school in September, and at 4:20 P.M. in January

The town, of nearly 2,000 people, is ten miles from the Mississippi River, beautifully located among picturesque hills, and is justly celebrated for its beauty and healthfulness. It is the county seat of Carroll County; has no saloons and no factories, and is almost entirely a residence town. The School stands on high ground, and overlooks a landscape rich and varied. The School grounds consist of thirty-six acres, a large part of which is protected and shaded by many majestic old pine, maple, and elm trees. Orchards furnish various kinds of fruits, and a kitchen garden supplies the table with fresh vegetables. The city water supply used by the School is obtained from an artesian well 2,500 feet deep. The Jersey milk furnished the School table is pure.

Aim

The main object at which the School aims is to fit its pupils for life—to secure the trained intellect, the refined sensibilities, the self-controlled will, the enlightened conscience, which together make a noble and symmetrical womanhood. It is a preparatory school, but it is far more than that.

The pupils are brought into constant contact with teachers of culture, refinement, and experience, who know how to meet the needs of young girls, and who enter sympathetically into their work and play. The appeal is made to the best in a girl; and results show that in most cases the appeal is successful. A series of years in such a school, or even a single year in some cases, will deeply and favorably affect the whole tenor of a girl's life.

Character.—Every applicant for admission must present a written statement of recent date, from pastor or teacher, giving assurance that she is in every way a suitable person to be a member of a home school for girls.

Equipment

It is confidently believed that no better equipped home is offered its patrons by any school for girls in the West. The School has the advantage of fifty-seven years of history, experience, and traditions; yet its equipment is entirely new. It has been rebuilt and enlarged since 1903. The buildings, solidly constructed of brick and stone, are heated by steam, lighted by electricity, and furnished with hard and soft water and all modern conveniences.

College Dormitory and Reception Hall

April 15, 1909, the Trustees let the contract for a new college dormitory and reception hall for the use of the whole school, ready September 8.

This brick and stone building is modified colonial, 90×40, three stories, with basement and attic. The trimmings are Bedford stone. The front terrace, sixty feet long and nineteen feet wide, with a railing and baluster, is of stone and concrete.

WEST HALL, COLLEGE HALL, WEST HALL ENTRANCE, POINT ROCK (IN THE
PARK), RAILWAY STATION

The ground floor contains a kitchen for preparing light refreshments. The dining-room, 22×30, with fireplace, is finished mission style with pilasters, drop beams, heavy baseboards, chair rail, plate rail, cornice molding, and triple French windows. The parlor adjoining is 15×32. The main hall running entirely across the building has pilasters, drop beams, large fireplace with seats, wide stairway with balcony, and wainscoting, continued to the second floor. The main feature on the ground floor is a drawing-room, 40×32, broken by Corinthian columns. The southern exposure on the golf course has two bay windows with window seats. The walls and ceilings of this floor were finished in lead and oil by Marshall Field & Co., Chicago, with appropriate designs and Tiffany effect.

The second and third floors contain toilet rooms, with eight single rooms and fifteen double rooms for teachers and pupils. All double rooms have two windows and two closets. The finish on the upper floors is dark-brown stain. The building has Tungsten Holophane electric light, steam heat, and elevator for trunks. The basement has hot-water heater. The building is connected with the central steam-heating plant and with the sewer system. Every room has sunshine.

This building is intended to care for the maturer pupils in the College Department and to furnish social facilities for the use of the whole school.

Metcalf Hall

The recitation rooms in Metcalf Hall, to which Andrew Carnegie contributed \$10,000, were first used January 11, 1908; the auditorium, January 17. The building is 107×44 feet, native stone and sand-mold brick, two stories and mezzanine story, with tower and finial 100 feet high. The building contains offices, library, cloak-rooms, ten recitation rooms, and auditorium seating over four hundred. The interior wood has cathedral oak and bog oak finish. The electric-light system embodies the latest designs in Holophane shades and Tungsten lamps, distributed evenly over the ceilings, lighting perfectly every part of the building. The heat is from the central steam and power plant. The tower contains the old bell used by Mrs. Shimer for more than thirty years.

The building is named in honor of Mrs. Sarah Metcalf, a lifelong friend of the School, whose son Henry is now president of the Board of Trustees.

West Hall

West Hall, occupied September 11, 1906, designed by Architect C. A. Eckstorm, Chicago, 154×40, is a perfectly equipped home for over fifty people, in addition to reception rooms, parlors, dining-room, and Dean's apartments. On the ground floor are pupils' parlor, pupils' kitchen, Young Women's Christian Association rooms, dining-room, serving-room, and kitchen—all built on most approved modern plans. A studio of artistic design is on the upper floor. Stand-pipe, with hose on each floor, and fire escape are provided, with ample stairways in addition. Bathrooms are on the first and second floors.

Hathaway Hall

Hathaway Hall, dedicated in November, 1905, was named for Mrs. Mary L. Hathaway Corbett, of the class of 1869, a sister of Mrs. Hattie N. LePelley, of Freeport, a trustee of the School, who gave liberally toward the erection and furnishing of the building. The basement contains a modern gymnasium 70×36 feet, besides three shower-baths set in marble partitions, lockers, and all other necessary fixtures. The three upper floors contain parlor, rooms for fifty pupils, baths, and trunk-room. The parlor has been furnished by the Mount Carroll Seminary and Frances Shimer School Association of Chicago. In 1910 the residents of Hathaway, assisted by outside friends, added to the beauty of the interior by gifts of pictures and furniture. No detail has been omitted which would contribute toward making the building a thoroughly modern and comfortable home. Adequate fire protection is secured by a standpipe, with hose connections on each floor, and fire escapes on each end, in addition to broad, easy stairs. The hall was designed by Shepley, Rutan & Coolidge, Chicago.

Dearborn Hall

The building for Instrumental and Vocal Music, and Domestic Science, was completed and opened for use in November, 1903. It is solidly constructed of brick and contains eleven practice-rooms, two rooms for instruction in piano and voice, sewing-room, kitchen, pantry, dumb-waiter, together with hall of generous size, and basement complete under the whole building. The building was designed by Shepley, Rutan & Coolidge, of Boston and Chicago. The steam-heat plant is connected with the boilers in the central heating plant. The building is named for Mrs. Isabel Dearborn Hazzen, formerly head of the Department of Music for over twenty years.

February 9, 1906, fire destroyed the three large brick buildings, Center Hall, East Hall, and South Hall. While the sentimental loss is keen the permanent advantage to the School in replacing these buildings with modern structures is great.

Power Plant and Laundry

In the summer of 1911, the School erected a permanent and spacious plant for steam heat and power, including steam laundry. The building is brick on concrete foundation, in size 80 × 56 feet. In the steam plant are installed two eighty-horse-power tubular boilers. These boilers are served by two Jones' under-feed stokers, giving steady heat with smokeless stack, as the stokers produce no smoke, though using the cheapest form of coal. The plant maintains a steady pressure of from one to three pounds on the radiators in rooms and halls all over the institution. The same plant furnishes steam to the hot-water tanks in the various buildings, runs the dish-washing machine in connection with the dining-room, and provides power for the laundry.

CARNEGIE PUBLIC LIBRARY
GLIMPSES OF FOUR BUILDINGS
WEST HALL

BAPTIST CHURCH

The laundry, which occupies a third of the building, is equipped with modern laundry machinery, including rotary washer, extractor, mangle, and dry room with fan. The tables for hand ironing are equipped with electrical connections for irons as well as with gasoline heaters when the electric current is not in use. One corner of the steam plant is partitioned off for use as a garage, furnishing a comfortable place for the machine in all seasons. The plant serves steam for heat and power through underground tunnels by means of pipes heavily insulated with the best form of asbestos pipe covering. This plant has capacity sufficient to provide for other buildings which it is hoped may be erected in the future.

Carnegie Library

At the solicitation of officials of the School, Andrew Carnegie offered, in February, 1905, to give \$10,000 to build a free public library for Mt. Carroll, if the town would furnish a suitable site and provide by taxation a sustaining fund. This library is now in use, and pupils have free access to its privileges under proper chaperonage.

Electric Clock

All buildings are equipped with electric bells, rung automatically by a Frick Program Clock. This insures accurate time and uniformity of procedure throughout the institution in closing and beginning recitations, as well as in hours for meals, for rising, and retiring. The master clock also controls a system of secondary clocks in other buildings.

History

The School, founded in 1853, and known for forty-three years as Mt. Carroll Seminary, became, in 1896, by the wish of the founder, Mrs. F. A. W. Shimer, an affiliated school of the University of Chicago. After much consideration between President Wm. R. Harper and Mrs. Shimer it was decided that a separate Board of Trustees should be organized to take charge of the School. The Board consists of fifteen members, representing the University of Chicago, the alumnae of the Seminary, and the citizens of Mt. Carroll.

The relation of the Frances Shimer School to the University of Chicago is a double one. In the first place, it is an affiliated school of the University, and, as such, the work of instruction is under the direct oversight of the University. In the second place, four of the fifteen Trustees are officials of the University. While, therefore, it sustains a relation to the University so intimate as to justify its name, it is an independent institution and seeks a constituency of its own.

The hundreds of graduates and pupils of Mt. Carroll Seminary are included as graduates and pupils of the School and the large constituency gained in over half a century furnishes a constant source of support, advancing its best interests.

Endowment

At her decease, Mrs. F. A. W. Shimer left the bulk of her property in trust for the benefit of the School. The property consists of money and real estate, chiefly in Illinois, Iowa, Nebraska, and Florida.

In addition to this, Miss Adelia C. Joy, for twenty years Lady Principal of Mt. Carroll Seminary, who died in October, 1903, in Davenport, Ia., left bequests to the School and to the Educational Aid Association. The last is for the benefit of pupils in the School who are worthy and who need financial help.

Courses of Study

Admission

No student need hesitate about coming to the School through fear of being excluded by the entrance examinations. The Introductory Year furnishes an opportunity to make up deficiencies. Students will be admitted to advanced classes on presenting written statements from instructors giving detailed account of work done, or from examination showing their qualifications to carry on the work of these classes with success. Vacation work will be credited only on examination. Every pupil must enter a class in spelling or satisfy the instructor in English that it is unnecessary.

Academic Department

The courses of study in the Academic Department include the studies necessary for admission to the best colleges. Each student will pursue such of the studies as may be required by the college or university which she desires to enter, or, if she prefers, such other work as may be agreed on.

In the statements which follow, a unit usually represents an exercise daily for the usual school year. In a few of the subjects the recitations occur four times a week instead of five.

Students who complete fifteen units (three of which must be in English, three in a language other than English, one in History, two in Mathematics, and one in Science), from the list below, will be entitled to the Academic Diploma of the Frances Shimer School.

Physical culture is required of all pupils unless excused by physician's certificate.

Pupils who do not wish to graduate may select such studies as they wish, subject to the approval of the Dean.

Summary of Academic Courses Offered

Each pupil is supposed to have four studies. If extras are taken the number should be reduced. Strong pupils after the first year may carry an extra course

in Music, Art, Elocution, or Domestic Science. The recitation periods are forty-five minutes long. The figures indicate the number of recitations weekly in each subject. Monday is the weekly holiday.

*Pupils may begin German in the first year, if they do not take Latin. French may not be taken until the second year or later.

Work required for graduation in *italics*. Three years in a language other than English are required also, and one of the two years in Science as offered above.

One unit in music may be secured by taking instruction from the Principal one

hour a week for two years, practicing one and a half hours a day. For two years' work in Domestic Science or Elocution, or for seven hours a week, for one year in Art, one credit is given. Credit for work in Music, Elocution, and Art will be given for work done elsewhere on examination only. Fifteen units are required for graduation, in addition to the regular work in physical culture.

The work offered above, if rightly chosen, is ample for admission to the University of Chicago, Vassar, Wellesley, and other colleges for women, and other universities or colleges East and West. To ascertain the exact requirements at each college it is advisable to write to the colleges concerned. It is highly desirable that pupils wishing to prepare for college, especially those in the East, should enter here at least by the second or third year of the Academy, otherwise they will probably lose a year in preparation for college entrance. This has been the experience of many girls who spent two or three years in schools not on the accredited list of the colleges in question.

Examinations are held each semester. Reports showing term and examination standing are sent to parents on request. Students who have completed these examinations in the required studies will be admitted to the University of Chicago, the State Universities, to Vassar, Wellesley, Beloit, Mt. Holyoke, Smith, and other colleges without examination.

The time for graduation from the Academic Department is usually four years.

For graduation in Music, Art, and Domestic Science, see pages given to those departments.

No student may graduate from the Junior College with less than 28 hours' work, an average of 14 each of the two years of the course, nor take more than 16 hours' work in any one year. (An hour means a recitation once a week throughout the year.) As a rule students are advised to carry four studies (never more) each meeting four times a week, making 16 recitation periods each week. A diploma will be given at the end of the course. Second-year studies may be taken earlier, if desired.

Students wishing to receive college credit in music must possess as a prerequisite the equivalent of Grades I and II in Calendar, p. 26. The college music requires not less than one hour a week of instruction with the head of the Department, and not less than an hour and a half a day practice. Credit will not be given in practical music without a year in Harmony. For extra charges in practice and theory, see "Expenses," p. 36.

Admission to the Junior College

Fifteen units are required for admission. A pupil who has fourteen units or, in exceptional instances, thirteen, may enter on condition. Graduates of high schools which are on the accredited lists of the North Central Association of Colleges and Secondary Schools, and other universities and colleges of like grade, will receive credit toward admission for work done without examination.

This Junior College work is the substantial equivalent of the Freshman and Sophomore years of a regular college. Ordinarily a good student who has done six full years' work at Frances Shimer School may enter the Junior class at college, provided the work done here is chosen with reference to the requirements of the college of her choice. Some institutions will require examinations before giving credit; some do not, including the Universities of Chicago and Nebraska, etc.

Pupils contemplating taking Junior College work are requested to write the Dean stating specifically what work they wish to do.

Announcement of Courses Offered

College

1. History

1. AMERICAN HISTORY: An outline course covering the whole period with special emphasis on the nineteenth century. Elson's text, supplemented by constant reference work in Hart, Schouler, Rhodes, with latest works on special periods. Notebooks and preparation of extended historical papers required. One semester, MR. MCKEE.

2. ENGLISH HISTORY: The Constitutional and Political History of England in the Eighteenth and Nineteenth Centuries. One semester, MR. MCKEE.

2. Economics

OUTLINES OF ECONOMICS: Consumption, Production, Money, International Trade, The Labor Problem, Transportation, Socialism, Public Revenues, Expenditures, Taxation. *Outlines of Economics* by members of the Department of Political Economy of the University of Chicago will be used as a basis. First semester, MR. MCKEE.

3. Sociology

AN INTRODUCTION TO THE STUDY OF SOCIETY: This course parallels the instruction under the same title at The University of Chicago. The aim is twofold: To provide a simple introduction to the special social sciences; and to develop interest and method in life-long observation of human groups and institutions. It is eminently practical, pointing out woman's opportunity for social service in the present age.

4. Psychology

The course includes: (1) A brief study of the nervous system and its functions; (2) Analyses of the phenomena of consciousness; (3) Occasional experiments. First semester, MRS. MCKEE.

5. Latin

1. CICERO: *De Senectute*; TERENCE: *Phormio*; Latin writing. First semester.
2. LIVY: Books 21, 22; Selections from Book I. Latin writing. Second semester.
3. HORACE: *Odes*. Outline history of Latin literature. First semester.
4. TACITUS: *Agricola* and *Germania*. Second semester, MISS HOBSON.

6. French

FIRST SEMESTER: *Mlle. de la Seiglière* (Sandeau); *Tartarin de Tarascon* (Daudet); Koren's *Composition*.

SECOND SEMESTER: *Le cené de Tours* (Balzac); *Le gendre de Monsieur Poirier-Angier*; grammatical review (Bruce's *French Grammar*); weekly themes and sight translation throughout year; reports on books read outside of class. MISS JOHNSON.

7. German

ADVANCED GERMAN: Both semesters, MISS JOHNSON.

8. Mathematics

1. SOLID GEOMETRY: Lines, planes, and angles in space; a consideration of polyhedrons, cylinders, cones, and spheres, with computation of surfaces and volumes, or COLLEGE ALGEBRA. Second semester.

2. TRIGONOMETRY: The functions of plane angles and the development of their relations to each other; ratios of two angles; solution of triangles and trigonometric equations; graphs of trigonometric functions; complex numbers and De Moivre's theorem. First semester.

3. COLLEGE ALGEBRA: Second semester.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion.

As the world's population grows, the demand for food and other resources will increase. This will put pressure on the environment and on the world's food supply.

One way to meet this demand is to increase the amount of land used for agriculture. This would mean clearing more forests and other natural areas.

Another way to meet this demand is to increase the amount of food produced on the land that is already being used. This would mean using more fertilizers and pesticides.

Both of these ways of increasing food production have drawbacks. Clearing more land for agriculture would destroy habitats and reduce biodiversity.

Using more fertilizers and pesticides would pollute the soil and water. It would also harm the people who use these products.

There is a third way to meet the demand for food and other resources. This is to use the land more efficiently. This would mean growing more crops on the same amount of land.

One way to do this is to use better farming practices. This would mean using less fertilizer and pesticides, and using more natural methods of pest control.

9. Science

PHYSIOGRAPHY: (1) The earth's features treated with reference to their origin and significance; (2) Agencies effecting changes in present geographic features; (3) The earth in relation to the solar system; (4) The atmosphere, its constitution, temperature, moisture, pressure, and circulation, with a study of weather maps and climate; (5) The ocean and the relation of the sea to the rest of the earth. First semester.

GEOLOGY: (1) Dynamic and Structural Geology, including more detailed work on geological processes and principles studied in Physiography; (2) Historical Geology, treating of the more important events of geological history. Second semester. Prerequisite: Physiography.

10. History of Art

ARCHITECTURE, 5 weeks; SCULPTURE, 5 weeks; PAINTING, 8 weeks: Three recitations a week will be for general work, the fourth for study and discussion of such works of art as have been taken up in the three previous recitations. Second semester, Miss Knight.

11. English

1. PRACTICAL COURSE IN WRITING: Long and short themes weekly. Arnold's *Study of English Poetry*, *Guide to English Literature*, and *Function of Criticism*; Pater's *Style*, read. Required of graduates of the Junior College. First semester.

2. HISTORY OF ENGLISH LITERATURE: Assigned readings, arranged chronologically to show the historical development of English literature, with special reference to important characteristics of each period. This course corresponds to English 40 at the University of Chicago. Required. Second semester, Miss Brown.

3. ENGLISH LITERATURE OF THE NINETEENTH CENTURY: Second semester, Mrs. McKee.

FIRST SEMESTER

ELEMENTARY GERMAN (2): Grammar; Simple Prose (Bacon). Oral reproduction of stories read.

INTERMEDIATE GERMAN: Grammar. *Der zerbrochene Krug* (Zschokke); *Das edle Blut* (Wildenbruch).

ADVANCED GERMAN: Review of grammar. *Aus dem Leben eines Taugenichts* (Eichendorff); *German Comedies* (Manly and Allen).

SECOND SEMESTER

ELEMENTARY GERMAN: Grammar. *Im Vaterland* (Bacon). Oral and written work in reproduction.

INTERMEDIATE GERMAN: *Wilhelm Tell* (Schiller); *L'Arrabbiata* (Heyse). Themes throughout the year on subjects selected from the classics read.

ADVANCED GERMAN: *German Composition* (Pope); *Frau Sorge* (Sudermann). Sight reading. Themes throughout the year. MISS JOHNSON.

French

FIRST SEMESTER

ELEMENTARY: *Grammar* (Fraser and Squair); *Reader* (Aldrich and Foster). Reproduction of easy stories.

ADVANCED: Advanced work in Grammar and Composition. *La Poudre aux Yeux* (Labiche et Martin); *La Mare au Diable* (Sand).

SECOND SEMESTER

ELEMENTARY: *Grammar and Reader* continued. *La Tache du Petit Pierre*. Short themes on material read.

ADVANCED: *French Composition* (François); *Colomba* (Mérimée); *La Chute* (Hugo). Themes throughout the year.

Science

FIRST SEMESTER

PHYSICS (4): Millikan and Gale. Laboratory work twice a week. Laws of Motion; Pressure in Liquids and in Air; Molecular Motions and Forces; Work and Heat Energy; Magnetism.

SECOND SEMESTER

PHYSICS (4): Electricity, Sound, and Light.

BOTANY (3): Bergen and Davis. A study of the Seedling; Roots, Stems, Buds, Leaves, Flowers, and Fruit; The Morphology, Evolution, and Classification of Plants; Ecology and Economic Botany. The work in botany will be done so far as possible by the actual study of plants by the pupils and field-trips will be one feature of the course.

PHYSIOLOGY (2): An outline course, covering one semester only. Constant use of skeleton and manikin.

Bible

1. HISTORY OF THE HEBREWS: From the establishment of the Kingdom to the return from the Exile. First semester, MRS. MCKEE.

2. LIFE OF CHRIST: The course includes an outline study of the life of Christ—his land, people, and times—and a special study of some of his teachings. Second semester, Mrs. McKee.

Mathematics

FIRST SEMESTER

ALGEBRA I (1): Slaught and Lennes. Elementary Course. Introduction to the Equation; Positive and Negative Numbers; Addition, Subtraction, Multiplication, and Division; Squares of Binomials; Graphs.

GEOMETRY (2): Phillips and Fisher. Plane Geometry. Book I, Parallel Lines and Straight Line Figures; Book II, The Circle; Book III, Proportion and Similar Figures.

ALGEBRA III (3): Slaught and Lennes. Advanced Course. Review of Elementary Algebra, with a more complete study of Quadratic Equations, Ratio, Variation, and Proportion; Exponents and Radicals; Principles of Logarithms; Progressions; Binomial Theorem.

SECOND SEMESTER

ALGEBRA I: Simultaneous Equations; Special Products and Quotients; Factors; Quadratic Equations; Fractions with Literal Denominators; Ratio and Proportion.

PLANE GEOMETRY: Areas of Polygons, Regular Polygons, and Circles. All work in geometry is accompanied by original demonstrations.

History

FIRST SEMESTER

GREEK HISTORY (1): West, to the death of Alexander.

MODERN HISTORY (3): Robinson, to era of the Reformation. Miss Dixon.

SECOND SEMESTER

ROMAN HISTORY (1): West, to the accession of Charlemagne.

MODERN HISTORY (3): to the twentieth century.

Notebooks and collateral reading required in all history courses. Miss Dixon.

History of Music

The course in history of music covers ancient as well as modern music, with special attention to the development of music since 1700. One recitation each week is devoted to compositions of musicians studied in the preceding three recitations, either in the form of a recital or of analysis, in order to make the results of the course of practical value. First semester, Miss Knight.

English

The classics studied in English and the ground covered varies somewhat each year; the following represents the general plan of the work in 1909-10. Pupils should come with a thorough knowledge of grammar and the ability to spell; one is at a serious disadvantage otherwise. Pupils wishing to enter senior

English should be able to write with fair freedom and accuracy, and to construct logical paragraphs and effective sentences in themes on simple subjects; also to analyze and grasp the thought of a page of ordinary exposition. Not records of previous work done, but tests given the first week of school have been found to be the most satisfactory method of determining classification. Composition and literature receive almost equal attention in all courses, themes being required at least once a week, exercises oftener. Wide outside reading is encouraged to the extent, in some courses, of three books of standard fiction, travels, or biography a semester.

FIRST SEMESTER

ELEMENTARY COMPOSITION—LITERATURE (1): Bulfinch's *Age of Fable*, studied carefully; Hanson's *English Composition*; weekly themes, with additional exercises.

COMPOSITION—RHETORIC (2): Franklin's *Autobiography*; Hawthorne's *House of Seven Gables*; Baldwin's *Speaking and Writing*; weekly themes.

COMPOSITION—LITERATURE (3): Macaulay's *Johnson*; Burke's *Speech on Conciliation*; *Macbeth*; weekly themes.

SECOND SEMESTER

ELEMENTARY COMPOSITION—LITERATURE (1): *Silas Marner*; *Midsummer-Night's Dream*; Irving's *Sketch Book*; Hanson's *English Composition*; weekly themes.

COMPOSITION—RHETORIC—LITERATURE (2): *Julius Caesar*; *Joan of Arc* and *The English Mail Coach*; *Idylls of the King*; Baldwin's *Speaking and Writing*; weekly themes.

LITERATURE—COMPOSITION—RHETORIC (3): *L'Allegro, Il Penseroso, Comus, Lycidas*; a brief survey of the main periods of English Literature, based on Moody and Lovett's *First View of English Literature*, with readings from Manly's *English Poetry*; a review of rhetoric, using Herrick and Damon's *Composition and Rhetoric*.

Domestic Science

COOKING (1) and (2); (3) and (4).

SEWING (1) and (2); (3) and (4).

Physical Culture and Public Speaking

1. ANATOMY; PHYSIOLOGY; HYGIENE.
2. SCIENTIFIC BREATHING.
3. VOICE CULTURE (speaking voice).
4. REMEDIAL PHYSICAL CULTURE.
5. DELSARTE SYSTEM.
6. LIFE STUDY.
7. READINGS; GESTURE; PANTOMIME; DRAMATIC ART; SHAKESPEARE—analytically and dramatically.

Introductory Department

While the chief work of the School is with pupils of maturer years, it furnishes a home and instruction for pupils in the Eighth Grade. A few pupils under 15 are in the family, and special provision is made for their care. The classes are small, and individual attention is given each pupil.

Any girls or young women who have a desire to teach will find in this department needed instruction and stimulus. Any who are interested are invited to address the Dean of the School for fuller information.

Business Course

To meet the needs of those who desire business training, instruction is given by a practical teacher of wide experience in Stenography and Typewriting. This work can be completed in one year with other studies; alone, in less. Touch-typewriting is taught; Munson systems of shorthand.

The Department of Expression

Physical Culture

Every pupil is required to take daily exercise in the open air. In addition to this, each pupil is required to have two periods a week in the Gymnasium, under the regular instructor, in classes. The Gymnasium on the ground floor of the new Dormitory extends over a space 89×36 feet with ample light, heat, and facilities for shower bath.

The Gymnasium is equipped with wands, Indian clubs, dumb-bells, swinging rings, chest machines, parallel bars, and piano. Under the regular régime of this work, the exercises being adapted to the peculiar needs of the individual pupil, physical weaknesses are corrected, the chest, waist, and limbs are strengthened, the carriage is improved, and the physical condition generally is given tone and vigor. Frequent talks on Anatomy, Physiology, and Hygiene are given.

The work includes fencing, basket-ball, fancy steps, fancy drills, games, the Swedish system of physical culture, running and jumping.

A golf course of five holes has been laid out on the School grounds. The course is well kept and is much used.

The School also sustains facilities for tennis, croquet, basket-ball, and hockey. Skating may be enjoyed on the creek near the School.

Lung Gymnastics

A course in lung gymnastics or scientific breathing is offered, which is helpful for throat and chest troubles, and furnishes a foundation for voice work. Proper breathing increases lung capacity and increases the resistance of the pupil against any tendencies to disease of the lungs. This is a distinct course, offered as private work to any pupils who care to take it as an extra.

A physical record of each pupil is kept, and the exercises are adapted to the needs of the individual. The aim is to develop strength, grace, and freedom of carriage.

Elocution

FIRST YEAR

Articulation and Enunciation; Vocal Technique; Evolution of Expression; Breathing; Physical Culture; Platform Deportment; Recitals.

SECOND YEAR

Diction; Expressive Voice; Literary Analysis; Prose Forms and Poetic Interpretation; Impersonation; Platform Deportment; Personal Development; Shakespeare; Recitals.

This department is based upon psychological and artistic principles. The method of instruction is that of the Emerson College of Oratory. It aims to develop in the pupils ease and power in the natural expression of their own thoughts and the thoughts of others. It involves culture of the broadest kind, requiring intellectual concentration, aesthetic appreciation, and power to control an audience. An appreciation of good literary style is gained through the exclusive study of work of the best authors. Special stress is laid upon voice and physical culture, responsive gesture drill, dramatic art, recital work.

Diploma.—Pupils who complete the two years' course in this department, with thirteen units in the academic work (which must include three units of English, one unit of history, one unit of science), will be granted a diploma.

Domestic Science

This department is designed to meet the needs of two classes of students, viz.: (1) Girls who desire a knowledge of the general principles of sewing and cooking and their application to home life; (2) Girls who desire to specialize in Domestic Science with the purpose of teaching.

Requirements for graduation.—Thirteen units of academic work, including one year of physics with laboratory work, in addition to the full course below.

Courses

FIRST YEAR

SEWING (1 and 2). Hand-sewing to master stitches, drafting and cutting of patterns, cutting and making of simple undergarments.

SEWING (3). Dressmaking, drafting of patterns, cutting, fitting, and making of simple waists, skirts, and dresses.

COOKING (1, 2, and 3). Fundamental principles of cooking, care of laboratory, and utensils.

PHYSIOLOGY. See Science.

FOOD AND DIETETICS. Principles of diet, relation of food to health; dietaries.

PHYSIOLOGICAL CHEMISTRY.

SANITATION. Home sanitation; selection of building site; drainage; heating; ventilation; lighting; plumbing. Recitations and lectures.

HOUSEHOLD DECORATION AND HOUSEHOLD ADMINISTRATION. Care and furnishing of the home; laundry work.

EMERGENCIES. Home nursing and invalid cooking; what to do in common emergencies, burns, fainting, sprains, etc.; care of the sick; preparation of proper food for invalids. Lectures and laboratory.

TEXTILES. Study of materials commonly used; composition and properties.

Department of Music

EMIL LIEBLING, *Visiting Director in Piano*

While Mr. Liebling's principal attention has been devoted to a large teaching clientèle he has found time to compose, write magazine articles, lecture on musical topics, and engage in frequent concert tours. Born in Germany, a resident of Chicago since 1872, his name has become thoroughly identified with the artistic achievements of the city, and he is favorably known and honorably mentioned throughout the musical world. Mr. Liebling meets the advanced members of the Piano Department individually at his quarterly visits; hears them play and discusses with them different modes of study, practical phases of musical teaching,

and also analyzes many forms of composition. The lectures and concerts of Mr. Liebling, given with the assistance of the members of the faculty of music and outside talent at each of his visits, serve to create a musical atmosphere for the School which ordinarily can be enjoyed only in the larger cities. The programs include the most important works of classical and modern pianoforte literature. Mr. Liebling also, at each visit, examines the work and progress of each pupil and prescribes her studies. These lectures, concerts, and examinations create a lively interest in the subject of music and beget enthusiasm among the pupils.

Mr. Liebling also offers an annual gold medal to be awarded to the best pianist in the department. In 1911 it was won by Florence Engelbrecht, Mt. Carroll.

The Conservatory of Music, conducted by the Mt. Carroll Seminary for many years, made for itself an enviable reputation for the thoroughness and artistic excellence of its work.

The work as now done by the School is rigidly graded and carried forward systematically as in other branches of study.

The regular

Piano Course

which pupils of average musical ability may, by taking daily lessons and practicing three or four hours per day, complete in three years, is divided into six grades:

GRADES I AND II

Major and minor scales with corresponding chords and arpeggios and finger technique; studies by Duvernoy, Opus 176 and 120; Czerny, Opus 209; Loeschhorn, Opus 66, Book I; Heller, Opus 47; Lecouppey, Opus 26; Bach, two-part inventions; sonatinas; easy sonatas by Mozart, and Beethoven, Opus 49, Nos. 1 and 2; also melodious pieces of corresponding difficulty.

GRADES III AND IV

Scales continued; chords and arpeggios of the dominant and diminished sevenths; studies by Biehl, Opus 60 and 66; Loeschhorn, Opus 66, Books 2 and 3; Czerny, Opus 740; Hasert, Opus 50; Heller, Opus 45 and 46; Bach, three-part inventions and French suites; selections from Handel, *Album*; sonatas continued; Mendelssohn, "Songs without Words"; modern composers.

GRADES V AND VI

Scales in double thirds; octave studies and advanced technical work; studies by Cramer, and Clementi, *Gradus ad Parnassum*; Bach, English suites and clavichord; Schumann's compositions; Weber's works, and pieces by Bendel, Godard, MacDowell, Liebling, Loeschhorn, Chopin, Henselt, and Grieg.

In every grade a sufficient number of pieces will be given to insure proper development of style. The course for graduation also requires sufficient work in accompanying and transposing to render the pupil proficient in both.

DINING-ROOM

Students may enter any grade for which they are found qualified. Some previous knowledge of the rudiments of music is expected of pupils entering the regular course. Superior advantages, however, are provided for those beginning music.

Requirements for graduation in the Piano Course include the work of the above-mentioned six grades, together with Harmony and Analysis one year, the literary work required of all students of Music and Art (see p. 30), the History of Music one-half year, and the following selections memorized: one concerto, Mendelssohn G-minor concerto or equivalent; two Beethoven sonatas; two Bach fugues; two groups of smaller solos. The School diploma, signed by the officers of the School and Emil Liebling, is granted the graduates in Piano.

For those who desire to continue in the School and carry their work to a greater degree of attainment, two courses have been arranged, as follows:

GRADE VII

(ADVANCED COURSE)

Czerny, *School of the Virtuoso*; Kullak, *Octave Studies*; études by Neupert, Seeling, Foote, and Moscheles; sonatas by Scarlatti, Weber, and Grieg; concerto in D minor, Mozart, and in C major, Beethoven; compositions by Raff, Reinecke, Liszt, Rubinstein, Schumann, Sinding, Debussy, and others; Beethoven's more important sonatas.

GRADE VIII

(MEDAL COURSE)

Includes the work of the previous seven grades and

Études by Chopin, Opus 10 and 25; Henselt, Opus 2 and 5; Rubinstein, Opus 23; Liszt's transcriptions of Bach's works and Hungarian rhapsodies; Beethoven, sonatas, Opus 53 and 57; Schumann, toccata and sonata, Opus 22; Chopin's larger works, and modern works of artistic merit and importance.

(This course requires a year to complete.)

A demonstrative recital given before the School is required of each graduate in each course, the program as far as possible being memorized.

Vocal Course

The first and most important consideration in voice-building is the establishment of correct breathing. This fact will be emphasized throughout the entire course.

Outline of Vocal Course

First and Second Grades.—Exercises for tone production; exercises in breathing; elements of notation; exercises in vocalization and solfeggio; sight-singing.

Third and Fourth Grades.—Exercises in vocalization and solfeggio continued; exercises for articulation in English and Italian; studies by Sieber,

Concone, Vaccai, Lamperti, Marchesi, and others are used; arias of moderate difficulty, ensemble singing.

Fifth and Sixth Grades.—More difficult studies in phrasing and expression, exercises for flexibility, embellishment, etc., at the same time building and memorizing a repertoire of church, concert, and operatic music.

Requirements for Graduation

A knowledge of the best songs of the modern German, French, and English composers; the most noted songs from Schubert, Schumann, and Franz.

Arias from the standard oratorios.

Arias from the standard operas.

Anthology of Italian songs of the seventeenth and eighteenth centuries.

A knowledge of piano music, equal to the first and second grade of the Piano Course.

Harmony and Music History. The course in Harmony extends over one year, four lessons a week. The course in Music History extends throughout one-half year, four lessons a week. Required literary work (see p. 30).

For those satisfactorily completing the regular course and desiring to be more proficient, an advanced course has been arranged.

THE FRANCES SHIMER SCHOOL

Advanced Course

Those who have completed the regular course and desire to continue are given a year of advanced work.

The course consists of original studies from nature, in any material used in the School. These are expected to show the pupils' ideas of composition in form and color. They are to be landscape, portrait, full-figure, and still-life.

This course is expected to need three hours' instruction daily in the studio.

China Painting

China painting is offered as an elective to such pupils as desire it.

Equipment

New casts are being added to the studio from time to time.

Required Literary Work for Graduates in Music and Art

Common English Branches

French, German, or Latin	2 units
History	2 units
Rhetoric and Composition and Literature	3 units
Physiology	$\frac{1}{2}$ unit
History of Music or Art	$\frac{1}{2}$ unit
Elective Scholastic Work	4 units

Pupils of mature years may be allowed to offer substitutes for the required literary work. Diplomas are granted pupils who complete the courses in Music or Art, as well as to graduates from the Scholastic Department. Certificates may be given when the work in the special department is complete, but the required scholastic work is deficient.

Pupils not desiring to graduate may take Music or Art or other studies as they wish, subject to the approval of the Dean.

THE FRANCES SHIMER SCHOOL

No pupil is received for less than eighteen weeks. School bills are payable, one-half September 11, balance January 7.

1. It is understood that all house pupils enter for the year, unless written arrangements to the contrary are made on entering. Pupils who ask to give up their rooms, for any cause, during the year, without giving six weeks' notice to the Dean before the beginning of any semester, may be charged for one half of the succeeding semester not taken.

2. *Payment of Bills.*—The bill for each semester is to be paid on or before the first day of the semester, and any pupil who registers for work in any semester becomes liable for the expense of the half year, whether day pupil or house pupil. If bills are desired before payment is made, they should be asked for long enough in advance to have drafts in the hands of the Dean by the first day of each semester. For dates, see Calendar, page 5. When students are compelled to be absent by protracted illness, covering six weeks or more during term time, the loss for the time after room is surrendered may be shared between the pupil and the School, time to be reckoned from date when written notice surrendering the room is received by the Dean.

3. During illness pupils pay for the services of the nurse for time actually given in room, and for simple remedies furnished on application. Pupils in the Infirmary are charged \$1 a day for nurse and meals; \$1.50, if night work is needed. In serious illness pupils employ a special nurse and physician. Girls who need the constant care of a physician are not received.

4. *Laundry.*—The laundry must be plain. All pieces difficult to iron will be charged extra. Shirtwaists extra between December 1 and April 1. Laundry should be marked, *in all cases*, with woven names (not initial letters) made by J. & J. Cash Co., South Norwalk, Conn. Write them for prices, giving the name of the School. They are inexpensive, lasting, and cannot be washed out.

5. *Student Service.*—The School offers a limited number of worthy pupils of limited means opportunity to reduce their expenses by doing clerical work, or ordinary housework. Prospective students who seek such aid should write the Dean, stating what part of the regular bill it is essential that they earn, and what kinds of work they are able and willing to do.

6. Books, stationery, art materials, toilet articles, inks may be purchased at the School Book Store at usual rates. These articles will be sold on credit, and an account will be rendered at the end of each semester to patrons who deposit \$15 with the Dean at the opening of each semester to cover these bills. Unexpended balances will be returned. Those who prefer not to make deposit may secure supplies for cash.

Parents who wish to intrust spending-money for their daughters to the care of the Dean may do so. The School possesses a safe in which such sums are

secure. Money cannot be loaned pupils by the School or Dean. In emergencies, money may be sent by telegraph.

7. *Deposit on Room.*—Applications for rooms should be sent to the Dean. The sum of \$10 must be deposited when a room is engaged either by old or new pupils, and no room will be reserved unless this deposit has been made. This deposit will be deducted from the bill of the second semester; or if the pupil gives up the room before August 15, the deposit will be returned.

8. *Scholarships.*—A scholarship covering tuition for one year in the scholastic department is offered to the girl of the highest standing in her studies in each high school of Carroll County provided she enters as a house pupil. This limitation does not apply to Mt. Carroll pupils. A scholarship covering University fees for three quarters is awarded by the University of Chicago to that one of the graduating class of the Frances Shimer School who has stood highest in the work of the School, time of attendance being also considered.

9. No pupil may receive a diploma whose bills are not fully paid. No pupil is expected to leave the School at any time, until all school bills and miscellaneous bills are paid.

General Information

Selection of the Courses of Study.—The work of the first year is substantially the same for all students. At the beginning of the second year each student will choose, with the advice of the Dean and the approval of her parents, the course best adapted to her needs and aims.

Special Students.—Students who do not expect to go to college may select such studies as they wish, under the limitations named on p. 14, and may secure a diploma after having done the fifteen units in any work selected. Students who prefer not to work with a view to graduation are free to select such studies as they wish, provided they keep their time occupied and have the approval of the Dean.

Examination and Grading of Students.—A student, therefore, who has successfully completed her School course, and wishes to enter, is admitted to the University of Chicago, to all colleges of the North Central Association of Colleges and Secondary Schools, and most other colleges without further examination. Examinations are held at the close of each semester. The average of the term grade and the examination grade is the final grade which is reported to parents on request as A, B, C, or D. Those who receive an average of D, the examination grade or term grade being 50 or less, must take another examination within six weeks. Those who receive E must repeat the subject to receive credit. Pupils absent from examinations, without good excuse, must take private examinations and pay the School \$1 compensation for the extra work. Special examinations, \$1.

LIBRARY, METCALF HALL

Absences.—Permission must be obtained, when practicable, in advance, for absence from church, from physical exercises, from chapel, and from study hours, as well as from recitations. Students are expected to attend every exercise. Parents are requested not to ask that their daughters be excused before the work of the semester is entirely completed. Such requests are rarely granted. The full work continues to the hour of closing, and full work begins at the hour of opening after winter and spring vacations. Those who have not reported in person to the Lady Principal or Dean within six hours of the time of opening in January or April may be required to make up lost recitations and may be required to pay a fee for the extra work caused thereby.

Sunday.—Parents are asked to co-operate with the School in keeping this day free from visiting, to the end that the rest and quiet and religious exercises of the day may not be interrupted.

Guests.—When notified in advance, the School is glad to entertain relatives and friends of pupils not to exceed three days at one time, at a charge of \$1.50 a day. Parents who come to inspect the school, or who bring their daughters to the school, are particularly welcome. At commencement usually only guests of Seniors can be received—not more than two for each Senior. Pupils are not excused from any regular school duty on account of guests. None can be received at the Fall opening. Lengthy visits are disapproved.

Absence from the Town.—No student may, under any circumstances, leave the town without permission previously obtained from the Lady Principal, on written request of parent. Pupils are not allowed to spend the night away from the School except in their own homes. Parents are requested not to ask for exceptions to this rule except in emergencies. Such requests are not considered unless addressed direct to the Dean and in ample time for correspondence. Such absences interfere with the studies and health of the pupil concerned, and also disturb the work of other pupils, and if numerous, seriously diminish the efficiency of the School.

Special requests of any kind should come from the parent to the Dean direct, not through the student. Parents should not consent to requests by pupils involving suspension of School regulations, until written request has been made to the Dean direct and answer has been received.

Advantages of House Residence.—Students from out of town are required in all cases, unless residing with near relatives (as near as uncle), to occupy rooms in the School buildings. Students occupying such rooms avoid many distractions, come into very close contact with the life of the School, and are more likely to regard the School work as the one thing demanding their best efforts. They are led to cultivate a healthy spirit of self-reliance, and to gain from their fellow-students an enthusiasm for study and a knowledge of life. Not infrequently the best and most lasting results of school life are derived from its associations.

Rules for house pupils are furnished on entrance. In general, they provide for the order and behavior of the pupils as would be expected in a good home. Pupils are free within the grounds, twenty-five acres, in recreation hours. When outside the grounds, they are under the oversight of teachers, as when they visit dentists, dressmakers, and stores. Special provision is made to oversee the studies of the younger pupils. All are protected from outside influences. Names of roommates cannot be given in advance.

Rooms, Furnishings, and Clothing.—Rooms are of different kinds and sizes. Rooms in Hathaway Hall are intended for two. Several rooms in West Hall are single. For extra charge for one pupil in a room, see p. 37. All rooms are furnished with hardwood floors, beds, chairs, table, bureau, washstand, and window shades. (Windows 6×4 , as a rule. Dresser tops 38×19 . Commodes 33×18 .) Students furnish *rugs* (if desired), *three sheets, three pillow cases* (26×20), *all bed clothing, six towels* (*three bath, three plain*), *four napkins, and napkin ring, knife, fork, spoon* (*for use in their own rooms*), *one gymnasium suit, dark blue preferred* (*bloomers and blouse*), *flannel night robes, one pair storm rubbers, umbrella, heavy walking shoes*. Clothing should be plain. Low-necked dresses are forbidden. The evening dress may be light in color but should be warm. School is not the place for expensive clothing. All articles must be plainly marked with J. & J. Cash's woven names (not initials). See under "Laundry" above. Beds are single, iron, with low ends, 6 feet 6 inches \times 3 feet. Trunks are not allowed in the pupil's room but are stored and are accessible.

Stoves of all kinds, oil, alcohol, gasoline, are prohibited in pupils' rooms; chafing dishes also. Pupils are not allowed to keep lamps, candles, or matches in their rooms, as a precaution against fire.

Jewelry.—Pupils are requested to leave expensive jewelry at home.

Correspondence.—Pupils' letters are never opened by the School. When parents wish correspondence restricted, they should furnish list of correspondents.

On entrance every girl will receive personal attention as to her physical condition. Parents are earnestly requested to supply any information that would assist in forming a just estimate of the pupils' physical needs. Parents and friends will assist in preserving the health of the pupils if they will not send them food or confectionery except at Thanksgiving and on birthdays. This food must not include canned or cooked meats or fowl or fish, and *must not exceed five pounds in weight (this is imperative)*, and must reach Mt. Carroll by the Saturday after Thanksgiving Day. *If food is sent at other times it will not be delivered.* The food furnished by the School is wholesome and abundant. Fruit may be furnished pupils if desired.

Express.—All express and telegrams must be sent in care of the School, and should be prepaid to avoid delay.

THE FRANCES SHIMER SCHOOL

Religious Life of the School.—Daily chapel services are held, attended by all teachers and pupils. Once a week at chapel a pupil furnishes music, an essay, or recitation; and once a week the Dean speaks briefly.

A weekly prayer-meeting is sustained by the Young Women's Christian Association. Pupils go to church and Sunday school at one of two churches in town. Sunday evening a meeting for the members of the house is held, led by the Dean or by one of the teachers or members of Y.W.C.A. The intention is that the influences in the School shall be those of a refined Christian home.

Registration Hours are on the day preceding the opening of each term, and on the day of opening. Changes in registration after the first week of each term, 50 cents.

All Business Communications should be addressed to the Dean.

Diplomas are granted pupils who complete the work either in the Scholastic Department or in Music, Art, Elocution, or Domestic Science.

Y.W.C.A.

This organization maintains a weekly prayer-meeting, encourages the social life among the pupils, sends delegates to national students' gatherings, takes charge of Sunday evening meetings occasionally, and seeks in every way to stimulate religious interest among the pupils.

The Frances Shimer Diversion Club

The Frances Shimer Diversion Club is an organization open to the whole student body; there are no restrictions of membership and no dues. This club gives frequent entertainments Saturday evenings for the School and public. One year it raised money to beautify the platform of the main auditorium with columns, entablature, and curtain. This year it completed the fund to beautify the walls of the auditorium, assisted by the Glee Club and others.

The Educational Aid Association

The object of this organization is to secure money to loan to pupils who are worthy and have need, and to enrich the library of the School with an annual

STUDIO
PUPIL'S ROOM

contribution for books. The society consists of alumnae and teachers and friends of the School. The officers are:

President, Mrs. Elhanan Fisher.
 Vice-President, Mrs. Robert Campbell.
 Secretary, Mrs. J. M. Rinewalt.
 Treasurer, Mrs. J. H. Miles.
 Chairman Students' Aid Committee, Mrs. W. P. McKee.
 Chairman Library Committee, Miss Dora G. Knight.

The Reunion Society

This organization includes alumnae, old students, and friends of the School whose purpose is to encourage friendly relations between old students and the School. It holds an annual business meeting at Commencement time and gives a program and a picnic supper on the School grounds. The officers of the Reunion Society are:

President, Miss Effie Shaw.
 Vice-President, Miss Jeanne Boyd.
 Secretary and Treasurer, Miss Delana E. Bailey.

The Mt. Carroll Seminary and Frances Shimer School Association of Chicago

President, Miss Margaret Powell, 908 Leland Ave.
 Vice-President, Mrs. Anna Williamson Collins, 287 Keystone Ave., River Forest, Ill.
 Corresponding Secretary, Mrs. Minnie P. Moore.
 Recording Secretary, Mrs. Lillian Hamblen Garst, 4950 Washington Ave.

Twin City Frances Shimer School Club

An association of old students has been organized within the past year in the Twin Cities. They have had several meetings, and have furnished the Dean's office with valuable information concerning the whereabouts of old students. The officers of the association are as follows:

President, Mrs. Fannie Bartholomew Bailey, Minneapolis.
 Vice-Presidents, Miss Helen Hewitt, Mrs. Ella Straight Gregory, Mrs. Ida Worden Cherry.
 Secretary, Mrs. Elva Calkins Briggs, St. Paul.
 Treasurer, Mrs. Helen Graham Holmes.

Library

The library was almost totally destroyed in the fire of February 9, 1906, and is being replaced as rapidly as the funds of the School and the generosity of its friends permit. It consists of over 1,100 well-selected volumes, including the *Editors' Encyclopedia*, the 1911 edition of the *Encyclopaedia Britannica*, and the latest editions of *Webster's*, the *Standard*, and the *Century* dictionaries, and other works of reference, and special departmental collections. The reading-room is supplied with a variety of wholesome current literature, including

the *London Times*, *Chicago Tribune* and *Record-Herald*, *Standard*, *McClure's*, *Outlook*, *Independent*, *American Journal of Sociology*, *Everybody's*, *Continental*, *Munsey's*, *Scribner's*, *Harper's*, *North American Review*, *Ladies' Home Journal*, *School Review*, *Biblical World*, *Helping Hand*, *Collier's American Illustrated Magazine*, *Literary Digest*, *Palette and Bench*, *Missions*, *Musical Leader*, *The Living Church*, *The Musician*, *The University of Chicago Magazine*, *The Journal of Political Economy*, and many of the school papers.

New Pupils

Omnibuses meet all trains. All baggage should be plainly marked with owner's name and address, and the *Hall in which the room is engaged*. If not so marked an extra charge for transfer may be made.

List of Pupils to May 1, 1912

The pupils marked with an asterisk () are graduates of the Frances Shimer School or of four-year high schools, or are doing college work chiefly, lacking not more than one unit of graduation in the academic course.
